

Legal Justice Hackathon

WHEN:

Day 1 Saturday November 5th
Day 2 Sunday November 6th

WHERE:

Virtual

MISSION:

Develop technology to improve legal justice processes for those who need critical help more efficiently and for those who aim to provide support.

Tech for Justice Legal Justice Hackathon will bring together Nonprofit Advocates, Legal Aid Organizations, Private Lawyers, Technologists, Students, Educators, Counselors, Activists, Businesses, Entrepreneurs, Public Housing Officials, State and City Representatives, Judges, and more.

WHO YOU ARE HELPING

- **Community Members:** Low-income individuals who need legal support and other resource help for problems such as domestic violence, consumer debt, evictions, foreclosures, and access to government benefits.
- **Legal Aid Offices** that aim to provide free legal help, but are overburdened by expensive and time consuming grant reporting precesses.
- **Legal Advocates** who aim to find new ways to support these communities.
